Objectives of ATRP

Reaction mechanism of ATRP

Modeling strategy

Comparison with experimental data

MMD of the dormant polymer

Dead polymer

Diffusional limitations

Conclusions

Acknowledgments

The Institute for the promotion of Innovation through Science and Technology in Flanders (IWT Vlaanderen) and the Belgian Government (IAP/IUAP/PAI P6/27: “Functional Supramolecular Systems”) are acknowledged for financial support.

[Diagram and equations related to ATRP, MMD calculation, and experimental data comparison]

Simulation results are in agreement with experimental data from literature.
